Subject: Media Request: Tire Crumb Study

Hi all-

We have more questions from Marjie Lundstrom at FairWarning on the tire crumb study. They are now partnering with NBC on this story. **Deadline is COB tomorrow**, but it would be great if we get these to OPA as soon as possible. We worked with Jose Zambrana and Annette Guiseppe-Elie on these answers. Let me know if you have concerns with sending these to OPA. Thanks.

1. About the release of the tire characterization study in the next 60 days. Do I understand correctly that this will be a list of chemicals found in samples from 9 tire crumb manufacturing/recycling plants and 40 fields? Where were these fields located?

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

2. If this is a list only of identified chemicals, I presume that there will be no associated findings on the toxicity or potential harm of any of these chemicals. Is that correct? That this will be a list of chemicals only without any risk assessment?

Deliberative Process / Ex. 5

3. You referred me to CDC about the proposed additional biomonitoring, but do you have a timeline on that aspect?

Deliberative Process / Ex. 5

4. Can you address the delays so far in releasing any findings since the work began in 2016?

Deliberative Process / Ex. 5

The following seems beyond what the questions asked

Deliberative Process / Ex. 5

5. Were you aware that Liberty Tire Services LLC has hired a lobbying firm to specifically address this year the "EPA Crumb Rubber Study?" Firm hired: Mercury Public Affairs.

Deliberative Process / Ex. 5
